

Renewal 2023

Week 1
June 25 - 30 (online)

Town Hall Conversations

Answering the Call for Decolonization &
Fostering Growth in Community and Curriculum

How can Waldorf educators best guide their children through the seismic shifts in the current landscape of education? What do today's teachers need to cultivate in themselves so that they can prepare children for a future none can fathom?

Join us on a journey towards new horizons as we explore insightful ideas and best practices for your classroom. Each day will include a different topic of conversation, followed by small group discussion.

Conversations with Alison Henry, Angela Zhaawanongkwe Lindstrom, Heather Scott, Adrienne Patrick, and Irene Richardson will provide insights into how each individual can take up the work of self-education on the path of understanding DEIJB and Waldorf education.
